Don Beattie G3BJ, President of IARU-R1

Split, January 11th, 2021

As far as I know, the practice of illegal use of the 9A bureau was never approved nor known to the HRS governing bodies. Immediately after learning about this, the HRS Board of Directors (6.06.2020) made a decision on the immediate cessation of the use of 9A QSL bureau for several foreign stations that declared themselves as QSL managers for an unknown number of Italian stations. The QSL manager has been changed and the QSL cards for the specified stations will be returned to the senders.
